UseCaseID	UC-PW032
Module	Election Worker
SubModule	
Summary	Read access to worker related database including Transaction Tables
Description	Read Access to database including Transaction Tables - Access to SQL or at least READ all tables
Trigger	
Precondition	User has proper security level and permission.
ExpectedResult	Admin Users can query tables and create own reports. Admin User can view/read tables.
DetailedProcessFlow	1. Analyst opens MSSMS 2. Analyst User connect to Views of Worker related tables. 3. Or, Analyst creates custom reports using SQL Query.
AlternateFlow	
Parent	
Requirements	UC-PW032-01 EMS to create a security level for Admin (for Analyst) to have read ONLY access to Views of Worker related tables such as Worker, Training, Schedule, Transaction, etc. UC-PW032-02 EMS to have full Transaction tables to all Worker related updates. UC-PW032-03 EMS shall allow Users with Admin access to create custom reports from the view.
RequirementID	
Gap	
Risk	[List of Risk IDs] Without this requirement, Analyst are totally dependent on Vendor for every little small query and reports needed.
