**CITY CLERK SUMMIT V**

On June 30, our Department held its fifth biennial City Clerk Summit at the Cerritos Performing Arts Center. More than 140 attendees representing 47 cities and numerous community groups attended the all-day event to share information about the process of conducting elections in the current atmosphere of continuous change. Our Summit theme, "The Ultimate Reality Show," helped our many partners understand the challenges we face together in serving the County's four million voters.

We started the day with a brief, lighthearted film that quickly brought our city and community partners up-to-date on what the Department has been doing since we last met two years ago. Enclosed is a DVD containing this introductory film. Since our last Summit in the summer of 2003, we have participated in unprecedented election events, including the Special Statewide (Recall) Election, record voter turnout in the Presidential Election of 2004, and the resignation of the Secretary of State. We hope you enjoy the 15-minute "snapshot" of election events contained in the film.

If you have any questions, please contact me at (562) 462-2716.

Welcome to Los Angeles County's

# Ultimate Reality Show

Once again - for the third Summit in a row - we are so appreciative that the City of Cerritos has generously provided the beautiful venue of its Performing Arts Center for today's meeting.

Even if you're not a regular television viewer, you can't help but be aware of the many reality-themed programs on network and cable. As we prepared for this year's City Clerk Summit, it seemed there was no better theme to capture the frantic pace of change in elections management than "The Ultimate Reality Show."

It isn't possible in just one day to list all the changes - positive and negative - that have affected the conduct of elections. We tried to convey at least the flavor of life for local elections officials in our program. Changing the voting system for four million voters felt to us like a kind of "Ambush Makeover." When cities and county government work together as partners in a consolidated election, we all need to understand the limits of our responsibilities and authority, so we included segments about the "Road Rules."

A number of City Clerks have agreed to serve on panels today. The Summit is intended to be your day, so most of the information presented will be in the form of dialog rather than lecture. We value our City and community partners, and look forward to an enjoyable day of sharing experiences - both yours and ours - in serving LA County voters. We will need a closer partnership than ever before to manage the atmosphere of continual change that now dominates the world of election administration.
