In a recount of an election for a statewide office or measure, Assembly, State Senate, Presidential convention delegate or slate of electors, Congress, State Board of Equalization, Supreme Court or Courts of Appeal, transmit one complete copy of all results of the recount to the Secretary of State. The Secretary of State shall compile the results of the recount and notify the affected counties within five (5) business days of receipt of all of the results of the recount as to whether the recount has changed the outcome of the election, as provided in Elections Code section 15632.

If a recount conducted in multiple counties changed the overall outcome of the election, all monies deposited in all affected counties by such a requestor shall be refunded. No refund shall be made if the recount did not change the overall outcome of the election.

 - a. A ballot that was counted in the official canvass, including a counted vote by mail or provisional ballot, may be challenged only on grounds of disqualifying distinguishing marks or some other grounds visible on the face of the ballot so that the ballot can be isolated and removed from the count if the elections official determines that the ballot was not properly cast.

20830. Recounts Using the Type of Vote Tabulating Devices Used In the Election.

1. Prior to conducting a recount of ballot cards or paper ballots using the type of vote tabulating devices used in the election, a logic and accuracy test limited to the contest subject to recount shall be conducted on each of the vote tabulating devices to be used in the recount, using a test deck created to test logic and accuracy for the contest to be recounted. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 20816. The results of the test, as well as the test deck used, shall be made available for inspection by any requestor, spokesperson, member of the media or observer present at the recount location between the time the test is completed and the posted time for recounting of ballots to begin.
2. A recount using the type of vote tabulating devices used in the election shall, to the maximum extent possible, be conducted using the same methods used to tabulate the ballots originally, and shall include the following:
 - a. On equipment capable of producing a paper tape or print-out, a zero-results tape or report shall be printed from each vote tabulating device, if feasible without new election coding and if supported by the device in the configuration used in the election, and verified by the requestor and spokespersons prior to any processing of ballots with that device.
 - b. If necessary to preserve the original vote count record, a backup of the election results shall be made and the same type of memory media that was used in the election shall be prepared to capture the recount vote results.
 - c. Each voted ballot shall be processed with the same type of vote tabulating devices used in the election.
 - d. Ballots that cannot be read by the vote tabulating devices shall be corrected or duplicated in accordance with Elections Code sections 15208, 15210 and 15211.
3. Once all eligible ballots cast in a precinct have been processed by a tabulating device, the device shall, if supported by the voting system, be rendered incapable of accepting further ballots for that precinct and the vote results shall be printed from that device and made available for public inspection. If supported by the voting system, the following steps shall also be taken:
 - a. Recount vote results of ballots cast in each precinct subject to recount shall be uploaded to the voting system's central tabulation and reporting application; and
 - b. The elections official shall report separately the recount vote results for each precinct subject to recount. Such reporting will include the number of ballots undervoted and overvoted in the recounted contest.

4. At the conclusion of tabulation of all precincts designated for the recount, a logic and accuracy test limited to the contest subject to recount shall be conducted on each tabulating device used in the recount, using the same test deck created prior to the recount to test logic and accuracy for the contest. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 20816. The elections official shall make the results of the logic and accuracy test, as well as the test deck used for the test, available for inspection by the requestor, spokespersons, members of the media and observers at the recount location before the conclusion of the recount.

1. One of the four special recount board members shall read the ballot and call out the vote cast for the contest subject to recount on that ballot; one shall observe that the correct call was made, and two members shall each separately and independently record the votes as called out.
2. Prior to beginning the actual manual recount, the elections official shall instruct all members of the special recount boards, requestor, interested parties, representatives and observers on the procedures to be followed for the recount and shall provide them with copies of these recount regulations, any local documentation concerning recount procedure, and documentation on how to interpret and read the votes cast on the ballot, consistent with federal and state law and the State Uniform Vote Count Standards. The instructions and documentation shall include a statement that in the event of a challenge, the determination of the elections official shall be final.

 - c. Ballots that were voted for the contest, sorted by candidate or position.
2. Starting with the voted ballots, one member of the special recount board shall state the candidate or position for which the vote was cast making sure the requestor, interested parties and their representatives can observe the contest subject to recount.
3. After the vote is stated and counted, the counted ballot shall be placed on the table, with the counted ballots placed in stacks of either 10 or 25, at the discretion of the elections official.
4. Two members of the special recount board shall record the votes stated, marking hashes in succession on their individual tally sheets. Each of these two board members shall *announce* when he or she has counted 10 (or 25) votes. If both members call out the same number of

counted votes at the same time, the tally shall continue forward for the next 10 (or 25) ballots. If both recorders do not reach 10 (or 25) additional votes on the same ballot, then the count for the last interval of 10 (or 25) ballots shall be stricken from their tally sheets and those ballots recounted.

5. A requestor or an authorized spokesperson may request to inspect any ballot. Tallying shall be halted while the ballot is presented to the requestor or spokesperson for closer inspection. At no time may any requestor or spokesperson touch or come into physical contact with any of the ballots. Tallying will resume once the requestor or spokesperson has completed the inspection, which the requestor or spokesperson shall complete in a reasonable amount of time.
6. Tallying shall continue in this manner, until all stacks of voted ballots have been tallied.
7. After all voted ballots have been counted and tallied, the two special recount board members who have been recording the votes shall each independently calculate the total votes for each candidate or position on their tally sheets. When both have completed totaling, they shall each announce their totals one candidate or vote position at a time. If both announce the identical vote total for each candidate or position in the recounted contest, the recount of that precinct shall be deemed complete and the results reported to the elections official. If the special recount board members announce different vote totals for any candidate or vote position in the recounted contest, the recount tallies recorded will be examined. If the difference can be explained by the special recount board or supervisor, or by the elections official or his or her designee, it shall be corrected on the tally sheet. A written report shall be made on an attachment to the tally sheet. In the event of an unexplained discrepancy, the results for that precinct shall be discarded and the recount of that precinct shall start over.

20833. Manual Recounts, “Vote for Multiple” Contests.

Manual recount tabulation on a voting system in a “Vote for Multiple” contest is subject to the following requirements:

1. Prior to counting the ballots for the contest subject to recount, and in the clear view of the requestor, spokespersons and observers, all ballots for the precinct shall be separated into stacks that do and do not contain the contest. Those that contain the contest shall be sorted as follows:
 - a. Ballots that were not voted for the contest (under-voted);
 - b. Ballots that were over-voted for the contest;
 - c. Ballots indicating a vote for the first candidate listed on the ballot for the contest; and
 - d. Ballots that do not indicate a vote for the first candidate listed on the ballot for the contest.
2. Starting with the voted ballots, one member of the special recount board shall state the candidate or position for which the vote was cast making sure the requestor, interested parties and their representatives can observe the contest subject to recount.
3. After the vote is stated and counted, the counted ballot shall be placed on the table, with the counted ballots placed in stacks of 10 (or 25).
4. Two members of the special recount board shall record the votes stated, marking hashes in succession on their individual tally sheets. Each of these two board members shall announce when he or she has counted 10 (or 25) votes. If both members call out 10 (or 25) counted votes at the same time, the tally shall continue forward for the next 10 (or 25) ballots. If both recorders do not reach 10 (or 25) additional votes on the same ballot, then the count for the

last interval of 10 (or 25) ballots shall be stricken from their tally sheets and those ballots recounted.

5. A requestor or an authorized spokesperson may request to inspect any ballot. Tallying shall be halted while the ballot is presented to the requestor or spokesperson for closer inspection. At no time may any requestor or spokesperson touch or come into physical contact with any of the ballots. Tallying will resume once the the inspection is completed, which the requestor or spokesperson shall complete in a reasonable amount of time.
6. Once all the votes for the first candidate have been recorded, the valid voted ballots shall be resorted into two stacks:
 - a. Ballots that were voted for the second candidate in the contest; and
 - b. Ballots that do not indicate a vote for the second candidate in the contest.

The ballots voted for the second candidate shall be calculated in accordance with (2) through (5) above. Tallying shall continue in this manner, until the votes for each candidate in the contest have been recounted and tallied.

7. After all voted ballots have been counted and tallied, the two special recount board members who have been recording the votes will each independently calculate the total votes for each candidate or position on their tally sheets. When both have completed totaling, they will each announce their totals one candidate or vote position at a time. If both announce the identical vote total for each candidate or position in the recounted contest, the recount of that precinct shall be deemed complete and the results reported to the elections official. If the special recount board members announce different vote totals for any candidate or vote position in the recounted contest, the recount tallies recorded and announced will be examined. If the difference can be explained by the special recount board or supervisor, or by the elections official or his or her designee, it shall be corrected on the tally sheet. A written explanation shall be made on an attachment to the tally sheet. In the event of an unexplained discrepancy, the results for that precinct shall be discarded and the recount of that precinct will start over.

20840. Recounts on Direct Recording Electronic Voting Systems Using Electronic Vote Results.

1. Prior to conducting the actual recount of ballots, a logic and accuracy test limited to the contest subject to recount shall be conducted on each direct recording electronic voting system being used in the recount, using a test pattern created to test the logic and accuracy for the contest. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 20816. The elections official shall make the results of the logic and accuracy test, as well as the test pattern used for the test, available for inspection by the requestor, spokespersons and observers at the recount location before the conclusion of the recount.
2. If supported by the voting system, electronic recount tabulation on a direct recording electronic voting system shall be based on a re-import and re-tabulation of the vote results from the electronic media originally used to capture and transfer the vote results from the direct recording electronic voting system devices into the election management system for that voting system. If re-import from electronic media is not supported by the voting system, the DRE vote results shall be manually added to the final results. The elections official shall generate a report for each recounted precinct detailing the aggregated direct recording electronic voting system vote results for the recounted contest.

Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.

Reference: Sections 19220, 19381, 19382 and 19383, Elections Code.

20841. Automated Recounts on Direct Recording Electronic Voting Systems Using Voter Verified Paper Audit Trail Paper Copies.

1. The voter requesting the recount of votes cast on a direct recording electronic voting system may request that it be conducted based on an automated scan and tabulation of the voted ballots directly from the voter verified paper audit trail paper copies. An automated scan shall not be used unless the Secretary of State has tested and approved the automated scan method as part of the certification of the voting system.
2. Prior to conducting the recount of voter verified paper audit trail paper copies from the direct recording electronic voting system, a logic and accuracy test limited to the contest subject to recount shall be conducted, using a test pattern and a test verified paper audit trail paper roll, on each automated scan and tabulation device to be used in the recount. The test shall be conducted publicly, subject to any limit made necessary by space limitations on the number of additional public observers beyond those that must be accommodated under section 20816. The elections official shall make the results of the logic and accuracy test, as well as the test pattern and test paper roll used for the test, available for inspection by the requestor, spokespersons and observers at the recount location before the conclusion of the recount.
3. Once all vote results have been scanned and captured from each scanning and tabulating device used for the recount, the elections official shall generate a report for each precinct detailing the aggregated direct recording electronic voting system vote results for the recounted contest.

Note: Authority cited: Section 12172.5, Government Code; Sections 10 and 15601, Elections Code.

Reference: Sections 19201, 19220, 19250, 19251 and 19253, Elections Code.

20842. Manual Recounts of Ballots Cast on Direct Recording Electronic Voting Systems Using Voter Verified Paper Audit Trail Paper Copies.

The manual recount, using voter verified paper audit trail paper copies, shall include the following:

1. If the direct recording electronic voting system used in the election subject to recount created continuous roll voter verified paper audit trail paper copies, the roll shall be re-spoiled if necessary to permit the recount to begin at the start of the roll. The roll may not be cut to separate the voter verified paper audit trail paper copies of individual voters.
2. One member of the special recount board shall be designated to review the voter verified paper audit trail paper copy and call out the vote results for the recounted contest from that paper copy. If it was printed and retained, this member shall begin by reviewing and verifying the zero-results tape printed prior to the opening of the polls and before any votes were captured. The zero-results tape, if it was printed and retained, shall also be reviewed and verified by the supervisor of the special recount board and by the requestor and spokespersons.
3. The board member designated to review and call out the vote results shall then proceed to review the voter verified paper audit trail paper copies in succession, calling out each ballot in turn and stating how the ballot was voted in the challenged contest until either 10 or 25 (at the discretion of the elections official) have been *called out*. *If there is no legible voter verified paper audit trail paper copy for a ballot due to a malfunction of the voter verified paper audit trail printer, the elections official shall print the ballot image for that ballot from the memory device used by the direct recording electronic voting system to record the ballot. The board member designated to review and call out the votes results shall review the printed ballot image and shall state how the ballot was voted in the challenged contest.*

4. Two members of the special recount board shall record the votes stated, marking hashes in succession on their individual tally sheets. The board member designated to call out the votes shall announce when either 10 or 25 votes (at the discretion of the elections official) have been called out, and the recorders shall confirm that their vote counts match exactly. If the vote counts match exactly, the board member reviewing and calling out the vote results shall draw a distinct line on the continuous voter verified paper audit trail roll between the individual voter verified paper audit trail paper copy containing the 10th or 25th counted vote and the individual voter verified paper audit trail paper copy for the next voted ballot, and the tally shall continue forward for the next 10 or 25 counted votes. If the vote counts do not match exactly, then the count for the last interval of voter verified paper audit trail paper copies shall be stricken from their tally sheets and those voter verified paper audit trail paper copies recounted.
5. The individual voter verified paper audit trail paper copies or printed ballot images shall be displayed to permit the requestor, spokespersons and observers to view the contest subject to recount, either directly or indirectly, as the voter verified paper audit trail paper copy or printed ballot image is reviewed and called. Voter verified paper audit trail paper copies for ballots that were canceled or canceled and re-voted, shall be noted but not counted toward the vote results.
6. A requestor or an authorized spokesperson may request to inspect any voter verified paper audit trail paper copy or printed ballot image. Tallying shall be halted while the voter verified paper audit trail paper copy or printed ballot image is presented to the requestor or spokesperson for closer inspection. At no time may any requestor or spokesperson touch or come into physical contact with any of the voter verified paper audit trail paper copies or printed ballot images. Tallying shall resume once the inspection is completed, which the requestor or spokesperson shall complete in a reasonable amount of time.
7. Tallying shall continue in this manner, breaks and meal times excepted, until the entire continuous voter verified paper audit trail record has been reviewed and tallied.
8. After all ballots of a direct recording electronic voting system have been reviewed and tallied from its voter verified paper audit trail paper copies and, where necessary, printed ballot images, the special recount board members who have been recording the votes shall independently calculate the total votes for each candidate or vote position on their tally sheets. When both have completed totaling, each shall announce his or her totals for that candidate or vote position. If both announce the identical vote total for each candidate or vote position in the recounted contest, the recount of that direct recording electronic voting system shall be deemed complete and the recount shall proceed with the continuous voter verified paper audit trail roll for the next direct recording electronic voting system with voted ballots for the challenged contest.
9. If the special recount board members announce different vote totals for the candidate or position, the recount tallies recorded and announced for that candidate or position shall be examined. If the difference can be explained by the special recount board or supervisor, or by the elections official or his or her designee, it shall be corrected on the tally sheet. A written explanation shall be made on an attachment to the tally sheet. In the event of an unexplained discrepancy, the results for that direct recording *electronic voting system shall be discarded and the recount of that candidate or position shall start over.*
10. *Once all the voter verified paper audit trail paper copies and, where necessary, printed ballot images containing votes for a precinct have been reviewed and tallied, the recount of that precinct shall be deemed complete and the results reported to the elections official.*

RECOUNT PROCEDURES

A Voter Requested Manual Recount is executed by a (4) person board consisting of a **Reader**, a **Watcher** and (2) **Talliers**.

Working as a team of four (4), the Reader and Watcher will sit on one side of the table and the (2) Tally Clerks will sit on the opposite side.

READER

The Reader receives the ballot cards for one precinct and two tally sheets for the first contest to be tallied. The board will tally (1) contest on the ballot card at a time.

STEP 1

Compare the (4) digit precinct serial number on all of the ballot cards to the precinct serial number on the tally sheets by flipping through the ballot cards. The numbers must agree. If they do not, INFORM A SUPERVISOR.

NOTE: Count the number of ballot cards and record the total in the appropriate place on the tally sheets. Notify your Supervisor if the hand count exceeds the computer count.

STEP 2

The tally sheets indicate the contest name and voting position numbers of each candidate or measure to be counted. Be sure to note the number of marks allowed for each office. (Vote for One, Vote for Two, etc.)

STEP 3

Identify the numbers of the voting position(s) to be tallied on the ballot card. Read one voting position number at a time. Wait for both Talliers to respond before calling the next voting position number.

STEP 4

Do not read marked voting position number if it is outside the range of voting position numbers identified for that contest.

VOTE MARK CONDITIONS

1. OVERVOTE

An overvote is a ballot condition which arises when the voter marks more candidates than the number of candidates allowed to be elected for each office. In an office to which only one candidate can be nominated or elected, a second mark creates an overvoted condition. The result is that no vote for that office can be tallied, since the voter's intent is unknown.

In the case of ballot measures, a "Yes" vote and a "No" vote marked for the same measure creates the overvoted condition.

None of the marks shall be tallied for any candidate or ballot measure when an overvote occurs. The number of overvotes shall be recorded for each office or ballot measure.

2. UNDERVOTE

An undervote is a ballot condition that arises when the voter marks fewer voting position numbers than allowed for the candidates to be elected, or when the voter does not mark a voting position for or against a ballot measure.

Tallying the number of undervotes for a multi-choice contest in a manual recount adds significant time to the manual recount process; consequently, undervotes are not included in the manual recount process.

3. NO (BLANK) MARKS

A blank vote, called a NO mark, is a ballot condition that arises when the voter does not mark a voting position for any candidate or FOR or AGAINST a ballot measure. A blank (no mark) vote shall be tallied as a NO mark on the tally sheet.

WATCHER

The Watcher assists and supports the Reader.

STEP 1

Verify precinct serial number on ballot cards, tally sheets, etc. and helps with counting ballot cards and separating party ballots (Primary Election only).

STEP 2

Verify that the voting position marked by the voter has been called correctly by the reader.

TALLY CLERKS

Each Tally Clerk receives a tally sheet.

The (2) Tally Clerks will record simultaneously--on each tally sheet--the voting position called by the Reader.

The tally sheets of both clerks MUST agree at all times. If they do not agree, CALL A SUPERVISOR.

STEP 1

The tally mark for each vote will be made in indelible pencil only in the appropriate square opposite the correctly marked position.

Five (5) votes will be tallied in each square with four (4) vertical lines and one (1) diagonal line.

Example: 

Begin with the first available square beside each candidate name or measure and continue until all votes cast for each has been tallied for that precinct.

STEP 2

When all ballot cards have been tallied, draw a line with a red pencil from the last tally mark to the end of the line. A straight edge liner will be provided for you. Draw a line through the other unused squares for that contest or measure only for the first line.

Example: 

STEP 3

Write the total number of marks tallied for each position under the preprinted machine count.

25
25
0

STEP 4

After the tally for a contest is completed, board members **must sign** and **date** the bottom of **both** tally sheets, as illustrated below. **NOTE:** A tally sheet is considered incomplete and void unless signed by all board members.

TO BE COMPLETED BY TALLY BOARD:

WE HEREBY CERTIFY THAT THE TOTAL NUMBER OF VOTES RECEIVED BY EACH CANDIDATE FOR EACH OFFICE, (OR THE TOTAL NUMBER OF VOTES CAST FOR AND AGAINST EACH MEASURE) IS THAT SHOWN ON THE FOREGOING TALLY SHEET.
