

UseCaseID	UC-PW028
Module	Election Worker
SubModule	
Summary	Geographical Map Display for Worker Address and Location Address
Description	Display Geographical worker residence address and Vote Center Locations to assist recruitment staff to visually see the election workers who live close to the Vote Center Locations. Map shall also show the boundaries of Service Areas and Precincts.
Trigger	
Precondition	Election Workers and Location address information is added on EMS.
ExpectedResult	EMS shall display the address point on a map.
DetailedProcessFlow	<ol style="list-style-type: none"> <li>1. User search for Election Workers by entering one or combination of criteria(s): <ol style="list-style-type: none"> <li>a) Service Area</li> <li>b) Workers: (select : assigned or unassigned)</li> <li>c) Job_title: (select from drop down list)</li> <li>d) Worker type: (Community, Student, County Election Worker, Coordinator, Troubleshooter, Teacher and CIC)</li> <li>e) Worker status: (available, assigned, yes or blank)</li> <li>f) Attended training: (yes or no)</li> <li>g) Language spoken: (select language from dropdown list)</li> <li>h) Location Type: Vote center or CIC</li> <li>i) Radius: (1, 2,3,4,5 miles)</li> </ol> </li> <li>2. User select button to enable recruitment by displaying Map</li> <li>3. EMS shall display the result based on criteria. The Map will display not only the election workers but also the locations in the surrounding areas.</li> <li>4. User will hover on workers bubble to see more details of the worker or election</li> <li>5. User will select the worker and open workers record</li> <li>6. User will assign the selected worker a job_title, schedule (days and time) and service area/location assignment.</li> <li>7. User will click Save button.</li> <li>8. System will save the assignment information.</li> </ol>
